

## Environmental Compliance Declaration

March 2011

### RoHS (RESTRICTION OF HAZARDOUS SUBSTANCES)

Quantum products have been designed and manufactured to be compliant with European Union Directive 2002/95/EC on the restriction of the use of hazardous substances in electrical and electronic equipment. Quantum's designation that a product is RoHS compliant means that the product does not contain any substances in excess of the maximum concentration values allowable under EU Directive 2002/95/EC, as amended by Commission Decision 2005/747/EC, unless the substance is in an application that is exempt under RoHS.

The following products are currently declared to be RoHS compliant:

#### Disk Backup Systems

DXi8500  
DXi7500 Enterprise  
DXi7500 Express  
DXi6700  
DXi6500  
DXi4500

#### Tape Libraries

Scalar® i6000 [1]  
Scalar® i500 [1]  
Scalar® i40/i80 [1]  
SuperLoader® 3

#### Stand-Alone Devices and Media

LTO Tape Drives  
DLT Tape Drives  
DAT/DDS Tape Drives  
RDX® Removable Disk Drives  
GoVault® Removable Disk Drives  
Media

[1] These products are RoHS compliant with exemptions including 7(b) for Lead (Pb) in solders.

### REACH (REGISTRATION, EVALUATION, AUTHORIZATION AND RESTRICTION OF CHEMICAL SUBSTANCES)

Under the REACH Regulation (European Union Regulation 1907/2006/EC), companies may have certain registration and notification obligations in connection with the REACH substances. However, Quantum currently does not have such registration obligations because Quantum does not ship REACH substances or preparations as defined by REACH, and Quantum products do not intentionally emit or release REACH substances under normal or reasonably foreseeable conditions of use.

Quantum is not currently aware of any REACH substances in its products in excess of 0.1% weight by weight, and as a result generally does not have any notification obligations under REACH. There may be situations, however, when shipping service parts, such as Customer or Field Replaceable Units, may cause notification obligations. At this time, in certain limited applications that may be relevant to the shipment of service parts (for example, power or data cables), the following substances may be present above 0.1% weight by weight:

Dibutyl phthalate (DBP)

Bis (2-ethyl(hexyl)phthalate) (DEHP)

Hexabromocyclododecane (HBCDD)

Benzy butyl phthalate (BBP)
